corporate close-up

"In Japan, in a traditional room, you see nothing but a vase and a scroll. And

A beautifully nurtured garden is an evidence of one's true love for the nature. The calming camaraderie of colorful flowers creating a psychedelic picture along with all shades of green – is just enough to give unlimited amount of peace and happiness.

At Gardencia, we believe in turning your garden into a gorgeous carnival of containers – usually called as planters or pot – and make sure every sapling you sow with love has its rightful home.

### Special Features

- Easy to Install at any place
- Water saving technology
- Feel the water once in six month (as per weather)
- Energy saving technology
- Easy to apply in 2-3 year tree
- Best for new tree
- Maintain the soil with huminity
- Reusable product
- No maintance after installation
- Anti salt affected
